PROFESSIONAL SUMMARY

Finance professional with 5+ years in finance roles, including financial analysis, planning, and budgeting. Experienced in coordinating analysis end to end: setting scope and timelines, working with inputs from cross-functional teams, and delivering executive-ready results on deadline. Proficient in variance analysis, scenario modelling, and translating complex data into clear recommendations. Completed MS in Finance & Analytics from Santa Clara University in June 2026.

TECHNICAL SKILLS

Financial Analysis & Reporting: Variance analysis, budget vs. actuals, forecasting, scenario analysis, financial modelling, P&L analysis

Professional Tools: Excel (Advanced), Perfios, Bloomberg Terminal, PowerPoint, Python (Pandas, Scikit-Learn, NumPy), SQL, Tableau

PROFESSIONAL EXPERIENCE

Financial Analytics & Literacy Program Designer Aug 2026 – Present

Frugal Innovation Hub, SCU, Santa Clara, CA

- Led end-to-end delivery of a digital product from concept to working prototype, scoping the work, setting milestones, and coordinating stakeholder input.
- Designed a bilingual (EN/ES) financial literacy platform for underserved adult learners.

Market Risk Analysis Industry Practicum Jan 2026 – Jun 2026

First Citizens Bank, Santa Clara, CA

- Coordinated analysis of FX, interest rate and commodity risk for 12 public companies (of 55 team wide) using Bloomberg Terminal and SEC 10-K/10-Q filings; tracked deliverables and synthesized findings into executive narratives for quarterly planning.
- Demonstrated ability to translate complex financial data into clear, actionable insights that inform strategic business decisions.

Credit Manager Jun 2021 – May 2023

ICICI Bank Ltd., NCR, India

- Appraised secured loan applications (up to $10 million), analyzing borrower financial statements (P&L, balance sheet, cash flow) to assess creditworthiness, repayment capacity and business viability.
- Built Excel-based financial projections for each case and recommended approval or rejection to senior credit approvers. Used Perfios for bank statement analysis to verify borrower income and cash flow patterns.

Credit Manager Sep 2018 – May 2021

Axis Bank Ltd., New Delhi, India

- Appraised working capital loan applications (up to $2.5 million) for the Small Business banking group, assessing borrowers' financials, credit history and repayment capacity.
- Reviewed collateral technical valuations and legal status reports to confirm each security met team and bank credit guidelines before approval.
- Recognized as Performer of the Month (Nov 2019) for exceeding portfolio targets with zero delinquency, demonstrating execution excellence and analytical rigor under pressure.

EDUCATION

MS in Finance & Analytics Sep 2025 – Jun 2026

Santa Clara University, Leavey School of Business, Santa Clara, CA GPA: 3.8/4.0

MBA, Finance Jul 2015 – Feb 2017

ICFAI Business School (IBS), Hyderabad, India

B.Com (Honors), Finance Jul 2012 – May 2015

Lucknow University, India

KEY PROJECTS

3-Statement Financial Model: Salesforce Inc. *Excel, SEC EDGAR, Advanced Analytics*

- Built a three-statement operating model using 5 years of 10-K data; forecasted revenue, margins, working capital, capex, and cash flow under Base, Bull, and Bear scenarios.
- Developed modular model architecture with scenario switching, sensitivity analysis (WACC, terminal growth rate), and validation checks.

AuditPulse: Financial Modelling & Market Analysis *Coursework Project*

- Co-developed a fintech SaaS concept for SMBs and managed the financial model workstream, setting assumptions and timelines; built an investor-ready 5-year model ($250K → $38.36M, 2026–2030), scenario analysis, capital planning ($3M seed ask), and $1.2B TAM sizing; pitched to VC industry judges.

Investor Behavior Segmentation *Python*

- Used Pandas and Scikit-Learn to build ML-based segmentation and forecasting models across 12,000+ investor records in 7 asset classes, delivering data-driven business recommendations.
