PROFESSIONAL SUMMARY

Finance professional with 5+ years in finance roles, including financial analysis, planning, and budgeting. Track record of building decision-support models, delivering executive reporting, and translating financial data into operational insights. Proficient in variance analysis, scenario modelling, and cross-team collaboration. Completed MS in Finance & Analytics from Santa Clara University in June 2026.

TECHNICAL SKILLS

Financial Analysis & Reporting: Variance analysis, budget vs. actuals, forecasting, scenario analysis, financial modelling, P&L analysis
Professional Tools: Excel (Advanced), Perfios, Bloomberg Terminal, PowerPoint, Python (Pandas, Scikit-Learn, NumPy), SQL, Tableau

PROFESSIONAL EXPERIENCE

Financial Analytics & Literacy Program Designer | Frugal Innovation Hub, SCU Aug 2026 - Present
Santa Clara, CA

- Lead end-to-end design and build of digital products, from concept to working prototype.
- Designed a bilingual (EN/ES) financial literacy platform for underserved adult learners.

Market Risk Analysis Industry Practicum | First Citizens Bank Jan 2026 - Jun 2026
California, USA

- Analyzed forward-looking financial exposures across 55 publicly listed companies using Bloomberg Terminal and SEC 10-K/10-Q filings; synthesized complex findings into executive narratives for quarterly planning
- Demonstrated ability to translate complex financial data into clear, actionable insights that inform strategic business decisions

Credit Manager | ICICI Bank Ltd. Jun 2021 - May 2023
India

- Delivered performance reports to senior management for a $10M+ portfolio; analyzed results and forecast variances to provide insightful commentary on business drivers and financial trends
- Built financial models encompassing P&L, balance sheet, and cash flow analysis; developed detailed forecasts reflecting business developments and quarterly drivers
- Performed complex variance analysis on borrower financials and macroeconomic trends; identified risk drivers and communicated findings to leadership for strategic decision-making
- Used Perfios platform for financial analysis and reporting, supporting efficient portfolio management

Credit Manager | Axis Bank Ltd. Sep 2018 - May 2021
India

- Recognized as Performer of the Month (Nov 2019) for exceeding portfolio targets with zero delinquency, demonstrating execution excellence and analytical rigor under pressure
- Supported quarterly and annual forecasting and financial reporting processes; performed detailed variance analysis on operating metrics and macroeconomic trends
- Delivered management reports for senior leadership; partnered with business teams to identify cost optimization opportunities and growth drivers

EDUCATION

MS in Finance & Analytics | GPA: 3.8/4.0 June 2026
Santa Clara University, Leavey School of Business, Santa Clara, CA

MBA, Finance Jul 2015 - Feb 2017
ICFAI Business School (IBS), Hyderabad, India

B.Com (Honors), Finance Jul 2012 - May 2015
Lucknow University, India

KEY PROJECTS

3-Statement Financial Model: Salesforce Inc. | *Excel, SEC EDGAR, Advanced Analytics*

- Built comprehensive three-statement operating model using 5 years of 10-K data; forecasted revenue, margins, working capital, capex, and cash flow under Base, Bull, and Bear scenarios.
- Developed modular model architecture with scenario switching, sensitivity analysis (WACC, terminal growth rate), and validation checks; demonstrated complex financial storytelling and insight generation

AuditPulse — Financial Modelling & Market Analysis | *Coursework Project*

- Co-developed a fintech SaaS concept for SMBs; built investor-ready 5-year financial model ($250K→$38.36M, 2026-2030), scenario analysis, capital planning ($3M Seed ask), and $1.2B TAM sizing; pitched to VC industry judges

Investor Behavior Segmentation | *Python*

- Used Pandas and Scikit-Learn to build ML-based segmentation and forecasting models across 12,000+ investor records in 7 asset classes, delivering data-driven business recommendations
